

What is claimed is:

1. A male supporter which is fitted to an inner part of male underpants,

comprising:

5 a lower piece which covers the scrotum from underneath;

an upper piece which is formed by belt-like cloth along the penis and covers the penis from the front side;

a pair of suspending devices which are connected to both left and right edges of said upper piece or said lower piece; and

10 an elastic axis device which connects a back edge of said lower piece to an inner crotch of said underpants,

wherein a top edge of said upper piece is connected to an upper central part of an inner front body of said underpants, and

ends of said suspending devices are connected to the upper left and right of the
15 inner front body of said underpants.

2. A male supporter according to claim 1, wherein said lower piece has a peripheral edge which is formed in an approximate circle shape, and a part which envelops the scrotum.

20

3. A male supporter according to claim 1, wherein said suspending devices and said elastic axis device are formed by elastic thread or belt-like elastic cloth.

4. A male supporter according to claim 1, wherein a retaining member for holding
25 the penis is provided on an inner part of said upper piece.
